

Rankings for national federations

Our ranking system, currently used for the LEN European rankings, can be used to maintain national rankings of your federation too. With our system you will have the advantage, that the information from the rankings on European level is fully integrated in your national rankings. You can fully customize your rankings and swimmer pages, including logos and advertising of your sponsors, so that it fits in the layout of your current website.

Preconditions

To setup the system for your federation, you have to provide us at least a club list with name, region and code. If you have a swimmer registration system, it's very useful to have a list of all registered swimmers. After the initial load, this list should be updated about 2-3 times a year.

You have to use a meet management software to run your meets in order to prepare the results in an electronic format. The preferred format is Lenex 3.0, but other formats work as well, as long as the information is complete and well defined in the results file.

You have to ensure, that a person in your federation collects all meet results and checks them for correctness. It is planned, that this work could be done with a remote client application, directly on our database in the future.

Our basic service

The basic service includes data collection and the availability of the rankings on our website www.swimrankings.net.

Data collection is done by the following rules:

- * Electronic results in the Lenex, SDIF and some more formats can be sent directly to us and will be imported by us.
- * All results from the meets that are on paper have to be typed in an Excel sheet, that can be imported by our system.
- * Minor corrections (e.g. one result, wrong name or birthdate) will be done by us on request by email. If the results of a whole event of a meet are wrong, this should be corrected in the Meet Management software and the meet should be resend again.

The rankings will be available on national, regional and club level for all individual and relay events.

You are free to define, which age groups should be available for your federation.

You are free to define the date range for a season (separate for short course and long course) that will be used for rankings in your federation.

All rankings will be available as PDF files too. You can provide a custom graphic with your sponsors, that will be printed on every PDF ranking of your federation, regions or clubs.

Other available features

The Calendar (<http://www.swimrankings.net/index.php?page=CalendarList>) is available as publishing system for all your meets. When you are using Splash Meet Manager, then results can be uploaded directly to the database and appear on the website immediately.

You can use the entry time check feature for any meet in your federation.

You can use swimrankings.net to check all meets for valid registration of all participating swimmers. To use this feature effectively it is necessary to get a list of all registered swimmers every month.

Advanced possibilities

For the website you can provide us your own HTML template with free space for the rankings data. This will allow you, to have your national rankings fully included in the look and feel of your current website with your other information and sponsors. In addition, every person, who looks at an athlete or ranking of your federation, will see automatically the design of your site. The following example show the same ranking once in our layout and once in the Swiss Swimming layout.

Leistungs-Vertrauen	Vat	Nat.	Club	Time	Place in ranking	Date	City
NEMESIA SANCZ, Javier	1995	ESP	Spain	22.24	1.	31 Mar 2005	Cadaq (ESP)
LORENTE, Edward	1977	ESP	Spain	22.47	2.	31 Mar 2005	Cadaq (ESP)
MONTES, David	1996	FRX	France	22.61	3.	23 Mar 2005	Genève (SUI)
BERNARD, Jean	1993	FRX	France	22.69	4.	10 Mar 2005	Toulon (FRX)
TUTTY, Matthew	1994	GBR	Great Britain	22.71	5.	25 Mar 2005	Manchester (GBR)
SCOTT, Alan	1979	FRX	France	22.78	6.	4 Feb 2005	St-Germain-les-Lacs (FRX)
CELEBR, Christoph	1985	GER	Germany	22.81	7.	12 Mar 2005	Munich (GER)
COUSSE, Christophe	1982	GBR	Great Britain	22.88	8.	20 Mar 2005	Manchester (GBR)

If you prefer, to publish your rankings fully integrated in your website, we offer the possibility, to get the rankings information in CSV or XML format through special URL's. With this information, you can write scripts for your website, which can get the information dynamically from our server and display it on your site exactly as you want.

Special customized reports

If you need a special report for any kind of ranking, scoring or qualification report, we will make you an offer for the implementation if it. The hourly rate for such work is € 95.-/h .

An example for such a report you can find here:

<http://rankings.fsn.ch/services/RankingKidsligaXIs/Kidsliga.xls?Gender=M&Season=2011>

This is a special Kids ranking for Swiss Swimming, where the results are converted to points. The time to add this custom export was about 10 hours of work.

Data ownership

All data collected by GeoLogix for the rankings of your federation will be available in a electronic format anytime you send us a request for it. You are free to use this data for any other purpose.

Prices

The price for our service depends on the size of your federation and the quality of the data (format and content) you can provide us. The price can be calculated with the following numbers:

Initial setup of the rankings and custom website	€	1'500.--	
Basic fee per year	€	1'200.--	
Additional cost per year for the first 5000 swimmers	€	-0.30	per swimmer
Additional cost per year for more than 5000 swimmers	€	-0.15	per swimmer

Please contact us, in order to get more information.
